To the Board of Education and  
Keri Loughlin, Assistant Superintendent for Business  
Elwood Union Free School District  
100 Kenneth Avenue  
Greenlawn, NY 11740

In planning and performing our audit of the financial statements of the governmental activities, each major fund and the fiduciary funds of Elwood Union Free School District as of and for the fiscal year ended June 30, 2016, in accordance with auditing standards generally accepted in the United States of America, we considered Elwood Union Free School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Elwood Union Free School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Elwood Union Free School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

However, during our audit we became aware of other matters that we believe represent opportunities for strengthening internal controls and operating efficiency. The recommendations that accompany this letter summarize our comments and suggestions concerning these matters.
CURRENT YEAR FINDINGS AND RECOMMENDATIONS

PUBLISHED FINANCIAL STATEMENTS

During our audit we noted the District did not publish the annual financial statements in accordance with Education Law Section 1721. The District is required to publish an annual financial report in one local public newspaper. The financial report should include a full and detailed account of all moneys received and all items of expenditure in full. The District is also required to give notice once in their official newspaper that audit reports and accompanying management letters are available for public inspection. The District did adhere to the second requirement and gave notice that the audit reports and accompanying management letters were available for public inspection. We recommend the District publish the annual financial statements in a local paper that includes a full and detailed account of all moneys received and all items of expenditure in full as per Education Law Section 1721.

BUDGET TRANSFERS

During our audit we noted four instances where budget transfers were made between and/or into equipment codes, which are non-contingent expenditure codes. According to the Commissioner's Regulations Section 170.2(1), budget transfers between non-contingent expenditure codes and budget transfers made from contingent expenditure codes to non-contingent expenditure codes are not permitted. We recommend the District adhere to this Regulation.

CAPITAL ASSETS

During our audit we noted three out of five newly acquired assets tested were not tagged during the year. We recommend the District ensure that all capital assets are tagged so that at any given point in time they can properly identify and account for the District’s entire capital asset inventory.

PAYROLL/PERSONNEL

During our audit of the District’s payroll and personnel processes we noted the following:

- The District’s school lunch fund timesheets were not signed or dated by a supervisor.
- Two out of forty instances where the Department of Immigration Employment Eligibility Verification Form (I-9 form) were not completed by the employer.
- Two out of forty instances where the Department of Immigration Employment Eligibility Verification Form (I-9 form) were not in the personnel files.
- Two out of forty employees were not paid the correct amount of hours which resulted in them being underpaid for the week.
We noted the District has resolved the above items once they were brought to their attention. We recommend the District continue to review its personnel files and verify that all required employees have an I-9 form in accordance with Department of Immigration regulations. We also recommend the District continue to review payroll and personnel procedures and monitor the processes to ensure internal controls are operating properly.

EXTRACLASSROOM ACCOUNTS

The District has established extra classroom activity accounts to maintain student activities and funds. The New York State Education Department has published guidelines governing the proper procedures and policies governing the extra classroom accounts and transactions. During our audit of the District’s extra classroom activity accounts, we noted the following:

- Some clubs were not using profit and loss statements for fundraisers held during the year.
- Ten out of ten invoices tested were not properly cancelled after payment.
- Seven out of ten cash receipts tested did not have sufficient documentation for cash receipts.
- Five clubs had no financial activity during the school year.
- Charters were not established for clubs.
- Board approval of clubs was missing.

We recommend the District review the extra classroom accounts to improve the procedures for the extra classroom accounts. We also recommend training of the extra classroom treasurer and advisors of the proper procedures required by the State of Education Department.

STATUS OF PRIOR YEAR RECOMMENDATIONS-PRIOR AUDITORS

CAPITAL ASSETS

FINDINGS: During the prior year audit, the prior auditors noted the District had properly reported the capital asset additions and disposals detail to the outside consultants at year end, however, the prior auditors noted that the District was not tagging newly acquired capital assets during the year. The prior auditors recommended the District ensure that all capital assets are tagged so that at any given point in time they can properly identify and account for the District’s entire capital asset inventory.

STATUS: Partially Implemented.
EXTRACLASSROOM ACCOUNTS

FINDINGS: During the prior year audit of the District’s extra classroom activity accounts, the prior auditors noted the following:

- Advisors continue to periodically use their own personal credit cards for club expenses and the request approval for reimbursement.
- Some clubs were not using profit and loss accounting for fundraisers held during the year.

The prior auditors recommended the District review the New York State Education Department’s guidelines with the central treasurers and activity advisors overseeing the extraclassroom funds to ensure they are following these guidelines. The NYSED guidelines are contained in a document called “The Safeguarding, Accounting and Auditing of Extraclassroom Activity Funds.” A review of this pamphlet will assist the District in determining the extent of internal controls that need to be communicated to be in compliance with these guidelines. In addition, the prior auditors recommended the District should make all efforts to pay vendors for extraclassroom expenses directly, instead of having them use their personal credit cards and requesting reimbursement.

STATUS: Partially Implemented. Based on our current year testing, the credit card purchases had adequate supporting documentation. However, some clubs were not using profit and loss accounting for fundraisers held during the year.

We would like to acknowledge the courtesy and assistance extended to us by personnel of the District and also compliment the business office on their excellent financial operations during our audit. Should you have any questions concerning the matters referred to in this letter, we shall be pleased to discuss them with you, at your convenience.

This communication is intended solely for the information and use of the Board of Education, the audit committee, management, federal awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

R. S. Abrams & Co., LLP
