INTRODUCTION

Section 100.2(ee) of the Commissioner's Regulations requires **Academic Intervention Services (AIS)** to be provided to students in grades K-12, primarily in reading and math. In addition, in 2000, the New York State Education Department (NYSED) issued requirements for **Response to Intervention (Rtl)** plans for students in grades K-4, in reading.

The purpose of **Rtl** and **AIS** is to improve student achievement. This is achieved by the steps below:

- assess the progress of all students 2-3 times a year using multiple measures as defined in this plan (universal screening)
- identify students at risk using multiple measures
- provide direct instruction through supplemental services to students at risk
- use a research based tool to monitor progress of students at risk
- monitor the progress of students who discontinue services
- Maintain communication between the building principal and parents of students who are receiving services or progress monitoring, through parent letters and an annual parent meeting.

Supplemental services are most often in reading and math, but may also include other areas such as social studies, science, and attendance.

What is Response to Intervention (RtI)?

Response to Intervention (RtI) is a process used to determine if a student is responding to classroom instruction and progressing as expected.

The assistance provided to students is based on three Tiers of service, as pictured below. Tier I is for all students; Tier II is for students who need additional, supplemental instruction (similar to AIS reading and math services). Tier III is for students who are not responding to Tier II intervention and are in need of a higher level of assistance.

In an RtI process, a student in grades K-4, who is struggling in English Language Arts or Math receives additional instructional support provided by matching instruction to a student's individual needs through a multi-tier instructional model. As shown below, each Tier in RtI provides instruction with increased intensity, which means smaller groups or instructional time, and/or increased focus on specific areas.

RtI focuses on the early prevention of academic difficulty, particularly in the area of reading by:

- ensuring appropriate instruction for all students;
- providing additional levels of instructional assistance (intervention) for students who require support; <http://www.p12.nysed.gov/specialed/RTI/parent.htm>
- monitoring students' progress;

Figure 1: the RtI Tiers, from NYSED, Engage NY:

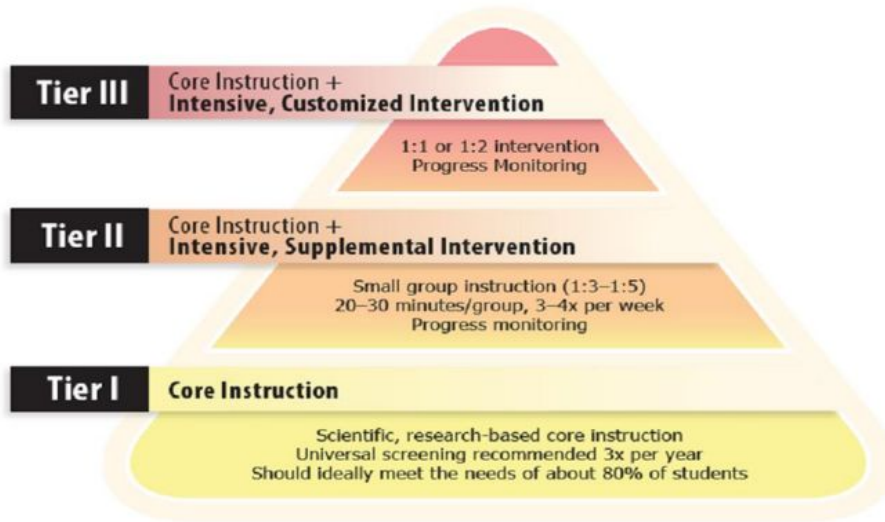

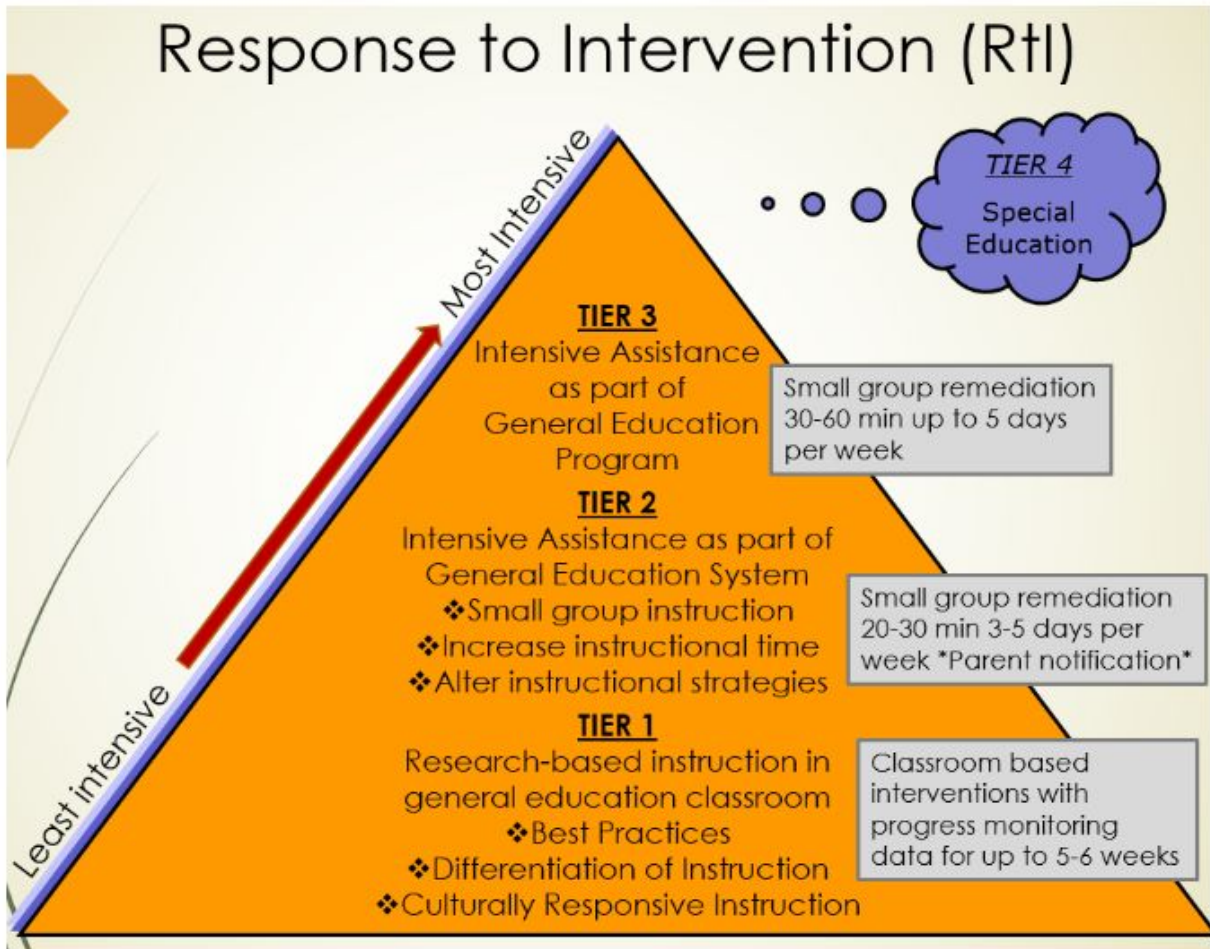

Figure 2: another look at the Rtl Tiers,

The Rtl tiers of support are considered General Education support services, which should occur prior to referrals to Special Education. Students already receiving English as a New Language or Special Education services, may also qualify for AIS, as those are separate programs. The optimal program for student achievement is assessed on an individual basis.

What are Academic Intervention Services (AIS)?

Academic Intervention Services (AIS) refers to additional instruction and/or student support services which supplement the instruction provided in the general curriculum and assist students in meeting the New York State Common Core Learning Standards. AIS is similar to Rtl in that students receive supplemental support, and their progress is monitored. AIS support continues through 12th grade; currently Rtl regulations define services for grades K-4.

AIS services are intended to assist students who are identified to be at risk of not achieving the New York State Learning Standards in English Language Arts, mathematics, social studies and/or science, or who are at risk of not gaining the knowledge and skills necessary to meet or exceed designated performance levels on state assessments and to be college and career ready. AIS also addresses barriers to learning such as attendance and behavior.

AIS include two components:

- additional instruction that supplements the general curriculum (regular classroom instruction); and/or
- student support services needed to address barriers to improved academic performance.

Section 100.2(ee) of the Commissioner's Regulations requires AIS to be provided to students in Grades 3 - 8 who score below the State designated performance level on one or more of the State elementary assessments in ELA, math or science. NYSED issues a memo in August of each year to identify the specific score that results in required AIS services.

Part 100.2 Regulation:

1. Academic intervention services means additional instruction which supplements the instruction provided in the general curriculum and assists students in meeting the State learning standards as defined in subdivision (t) of this section and/or student support services which may include guidance, counseling, attendance, and study skills which are needed to support improved academic performance; provided that such services shall not include services provided to students with limited English proficiency pursuant to Part 154 of this Title or special education services and programs as defined in Education Law, section 4401(1) and (2).
2. Academic intervention services are intended to assist students who are at risk of not achieving the State learning standards in English language arts, mathematics, social studies and/or science, or who are at risk of not gaining the knowledge and skills needed to meet or exceed designated performance levels on State assessments.
3. Academic intervention services shall be made available to students with disabilities on the same basis as nondisabled students, provided, however, that such services shall be provided to the extent consistent with the individualized education program developed for such students pursuant to section 4402 of the Education Law.

Purpose of this Plan

The Rti & AIS plan addresses barriers to student academic progress, which may include services in areas such as reading, math, guidance, counseling, attendance, and study skills that are needed to support improved academic performance and serve to reduce the barriers to academic progress. The AIS program is distinct from the English as a New Language program and Special Education services. AIS may be offered to students in addition to those programs. based on individual student needs and their overall school program.

The purpose of this plan is to provide a description of academic intervention instructional and support services in the Elwood School District. This description includes:

- Explanation of essential terms for AIS;
- Reference to annual meeting for parents with AIS providers and the Principal;
- The procedures used at each building to determine the need for academic intervention services including:
 - the name of AIS providers, the tools used for Universal Screening and additional screening tools, entrance criteria, frequency and minutes, progress monitoring tools and frequency, and exit criteria;
- Sample letters for communication with parents, from the AIS providers and the Principal, regarding entrance and exit from the program, or progress monitoring for students not currently receiving direct services;
- Description of how progress is reported to parents;

Key Terms

Sources: <http://www.rtinetwork.org/glossary>

Academic Intervention Services

Assistance for students who are struggling to achieve the learning standards in English language arts and mathematics in grades K-12 and social studies and science in grades 4-12.

These additional general education services include: extra instructional time to help students achieve the learning standards in the subject areas requiring AIS; support services to help students overcome barriers that are affecting their ability to learn, such as attendance problems, family-related issues, discipline problems and health-related issues. Support services could include school guidance and counseling services to improve attendance and coordination of services provided by other agencies.

Assessment

Measurement of student growth; assessment tool choice is dependent on the purpose and use of measurement results.

Behavior Intervention Plan

A behavior plan based on a Functional Behavior Assessment (FBA). It is developed and implemented by a collaborative team, which includes the student and parent. The plan includes positive behavior supports (PBS), identified skills for school success, and specific strategies for behavioral instruction.

Benchmark

Important student outcomes or goals for a grade within a particular domain (e.g., reading), that students should be achieving during the course of a school year (e.g., fall, winter, spring) in order to be on target for end-of-grade performance by the end of that school year benchmark assessments: assessments used to set benchmarks (e.g., according to local norms) and/or to determine whether students are achieving grade level standard.

Curriculum-Based Measurement (CBM)

Tools for measuring student competency and progress in the basic skill areas of reading fluency, spelling, mathematics, and written language.

Intervention

The systematic and explicit instruction provided to accelerate growth in an area of identified need. Interventions are provided by both special and general educators, and are based on training, not titles. They are designed to improve performance relative to a specific, measurable goal. Interventions are based on valid information about current performance, realistic implementation, and include ongoing student progress monitoring.

Norm-Referenced Assessment

An assessment designed to discover how an individual student's performance or test result compares to that of an appropriate peer group.

Parental Engagement

The meaningful and active involvement of parents and family members in the educational process.

Positive Behavior Supports

Evidence-based practices embedded in the school curriculum/culture/expectations that have a prevention focus; teaching, practice, and demonstration of pro-social behaviors.

Problem-Solving Approach to RTI

Assumes that no given intervention will be effective for all students; generally has four stages (problem identification, problem analysis, plan implementation, and plan evaluation); is sensitive to individual student differences; depends on the integrity of implementing interventions.

Progress Monitoring

A scientifically based practice used to assess students' academic performance and evaluate the effectiveness of instruction. Progress monitoring can be implemented with individual students or an entire class. Also, the process used to monitor implementation of specific interventions.

Research-based Instruction/Intervention/

A research-based instructional practice or intervention is one found to be reliable, trustworthy, and valid based on evidence to suggest that when the program is used with a particular group of children, the children can be expected to make adequate gains in achievement. Ongoing documentation and analysis of student outcomes helps to define effective practice. In the absence of evidence, the instruction/intervention must be considered "best practice" based on available research and professional literature.

Scaffolding

An instructional technique in which the teacher breaks a complex task into smaller tasks, models the desired learning strategy or task, provides support as students learn to do the task, and then gradually shifts responsibility to the students. In this manner, a teacher enables students to accomplish as much of a task as possible without adult assistance.

Systematic Data Collection

Planning a time frame for and following through with appropriate assessments to set baselines and monitor student progress.

Universal Screening

A quick check of all students' current levels of performance in a content or skill area. This is administered two or three times per year.

What is Title I

The schools of Elwood receive Title I funding as part of the Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA).

Title I funding is designed to support State and local school reform efforts tied to challenging state academic standards to reinforce and enhance efforts to improve teaching and learning for students. Title I programs must be based on effective means of improving student achievement and include strategies to support parental involvement.

Family Engagement

Elwood Schools will provide opportunities to improve parent engagement to support student learning. We value the contributions and involvement of parents to establish an equal partnership for the common goal of improving student Achievement. Some of the opportunities for parent involvement include: Title I Parent Meetings scheduled at each building in the fall; PTA events; Curriculum Conversation evenings; and student and parent events at each building.

Title I Complaint Procedure

Any parent or guardian with a concern regarding Title I Services is encouraged to communicate with your child's Title I service provider for a satisfactory resolution.

1. Email or call the teacher providing the AIS or RtI services. Describe the concern and the matter for which you are seeking information or resolution.
2. If the matter is not resolved satisfactorily, contact the Building Principal.
3. If the matter is not resolved satisfactorily, contact the Assistant Superintendent for Curriculum and Instruction (Dr. Maureen Hull, mhull@elwood.k12.ny.us, or 631-266-5400, x1222).
4. If the matter is not resolved satisfactorily, contact the Superintendent of Schools, (Dr. Kenneth Bossert, kbossert@elwood.k12.ny.us).

Description of RtI/AIS Services by Building:

Harley Avenue Primary School, Grades K-2			
	Mandatory Reading AIS	OSCAR	Math AIS
Name of Providers	Kelly DiBiase Katie Parker (Grades 1-2)	Kindergarten, Grade 1 and Grade 2 provided by classroom teachers, and Teaching Assistants	Linda Scotto (for grades K-2)
Universal Screening Tools	Fountas & Pinnell Benchmarking Kits, 3rd Ed LLI Running Records I-Ready	Fountas & Pinnell Benchmarking Kits, 3rd Ed	End of year local assessment I-Ready
Additional Screening Tools	Classroom performance, Running Records, IST TC Phonics Assessments	Classroom performance, Running Records, IST TC Phonics Assessments	Classroom performance, unit exams, teacher recommendation, Math Recovery Test, Fluency Exam, IST
Entrance Criteria	Multiple Measures Any student who is reading below grade level Parent Request	Multiple Measures Any student who is reading on or below grade level Parent Request	Multiple Measures Parent Request
Frequency and minutes	2-5 times a week, 30 minutes each	3x week, 30 minutes	2-5 times a week, 30 minutes each
Progress Monitoring Tools	Observation, Running Records completed by the classroom teacher and/or Reading Specialist informally on a monthly basis. Monthly Progress Reports Monitor benchmarks for all students in grades k-2 monthly.	Observation, Running Records completed by the classroom teacher and/or Reading Specialist informally on a monthly basis. Monthly Progress Reports Monitor benchmarks for all students in grades k-2 monthly.	Observation Fluency Exams Unit Exams
Exit Criteria	Reading on grade level at the end of the AIS cycle Cycles are usually 6-8 weeks and align with our monthly assessments	Reading on or above grade level at the end of the AIS cycle Cycles are usually 6-8 weeks and align with our monthly assessments	Fluency Exams Classroom Performance Math Recovery Test Performance
Additional Information	RAZ kids is an online reading program that students have access to 5 days a week from home and school The computer program addresses phonics, fluency and comprehension

Dear Parent(s)/Guardian(s):

Your child, _____, has been referred to the Academic Intervention Services program (A.I.S.) in { insert subject}. This program is designed to provide additional support in specific content areas and is located in room 115.

Please sign below and **have your child bring this form to the A.I.S. room.** At that time, we will discuss a convenient period to meet since A.I.S. isn't currently programmed into your child's schedule. If you have any questions or concerns, please feel free to email me at pmanniello@elwood.k12.ny.us. I look forward to a productive and successful year.

Reason for Referral:

Sincerely,

AIS Teacher

I have received the information regarding A.I.S. for my son/daughter.
